

MAPPING FORMULA 1

SUCCESS

Give a short intro
to the topic and
the vis.

state the purpose of
the vis etc.

THE CIRCUITS

Introduce the circuits
in F1 and how
they can be used

to investigate the
topic.

A Global View of F1 Circuits

Analysis...

Proportional Dot
map

→ select dots (circuits)

Bar Chart
→ circuit usage over
time

Geographical Distribution of Circuits

Analyse...

Stacked Bar
Chart

→ circuits / year
by continent as
colour.

Introduce the next
subtopic → relate back
to main narrative.

Image

Flow of Teams From Circuit to Circuit

Analyse here...

Flow map

→ times travelled between
consecutive circuits in a
season.

THE DRIVERS

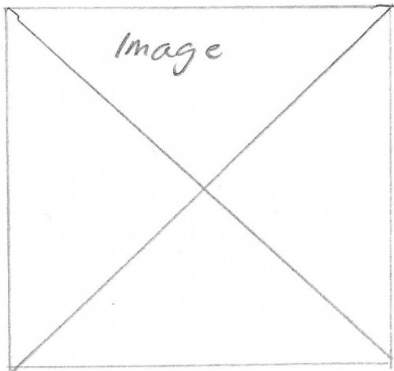

Introduce F1 drivers and relate back to the main topic.

Give an outline of what we will investigate.

F1 Driver Nationalities

Analyse here...

Choropleth Map.
→ 1 driver per country

Introduce next subtopic to explore and the graphs that have been created to show this.

Continent Representation Over Time

Analyse here...

Stacked Area Chart

→ continent % over time

Dominant Driver Nationalities

Analyse here...

Ordered Bar Chart

→ 10 most common nationalities.

Driver Dashboard

Analyse here...

ordered Bar Graph

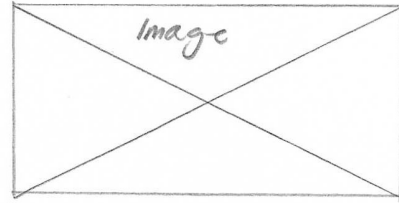

→ top 10 drivers + driver selection

Bar Graph of wins over time (filtered for that driver).

THE CONSTRUCTORS

Introduce the constructors and relate back to the topic.

F1 Constructor Origins

Analysir here...

Choropleth Map

→ % constructors per country.

Introduce the next subtopic here + the graphs that will be used to explore it.

Proportion of European Teams

Analysir here...

Donut Chart

→ % european teams vs others.

Top Constructors Accumulated Success

Analysir here...

Line Chart

→ top 5 teams' success

Constructors with highest No. Wins

Analysir here...

Bar Chart

→ top 10 teams

Distribution of constructor Championship Success

Analysir here...

Histogram

→ final position for searched team.

Conclude the findings here, summarise the trends that were found and suggest what we can interpret from this etc.
